Schools must use the funding to make **additional and sustainable** improvements to the quality of Physical Education, Sport and Physical Activity (PESPA) they offer. This means that you should use the Primary PE and Sport Premium to:

- Develop or add to the PESPA activities that your school already offer
- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

Please visit gov.uk for the revised DfE guidance including the 5 key indicators across which schools should demonstrate an improvement. This document will help you to review your provision and to report your spend. DfE encourages schools to use this template as an effective way of meeting the reporting requirements of the Primary PE and Sport Premium.

We recommend you start by reflecting on the impact of current provision and reviewing the previous spend. Under the [Ofsted Schools Inspection Framework](#), inspectors will assess how effectively leaders use the Primary PE and Sport Premium and measure its impact on outcomes for pupils, and how effectively [governors](#) hold them to account for this.

Schools are required to [publish details](#) of how they spend this funding as well as on the impact it has on pupils' PE and sport participation and attainment by the end of the summer term or by **31 July 2019** at the latest.

We recommend regularly updating the table and publishing it on your website throughout the year, as evidence of your ongoing review into how you are using the money to secure maximum, sustainable impact. To see an example of how to complete the table please click [HERE](#).

Support for review and reflection - considering the 5 key indicators from DfE, what development needs are a priority for your setting and your students now and why? Use the space below to reflect on previous spend, identify current need and priorities for the future.

2019/2020

Key achievements to date:	Areas for further improvement and baseline evidence of need:
<p>The school games mark (which we applied for in July 2019) and gained Bronze award. Previously we didn't have any PE award.</p> <p>Change in attitude and behaviour of pupils, especially in KS2, with regards to PE and competitive sporting opportunities. Pupils much more willing to cooperate and work as a team. This is evident not only in PE lessons but also other areas of the curriculum when they need to try and work together.</p>	<p>We used the results from our application for the school games mark to help us to identify what the next steps would be for us to focus on in order to improve sport and PE in school and achieve silver award in July 2020 (see below).</p> <p>To improve links to clubs and our community to support young people to access physical activity outside of school.</p> <p>To engage SEND pupils in after school activities and inter-school sporting opportunities.</p>

Meeting national curriculum requirements for swimming and water safety	Please complete all of the below:
<p>What percentage of your current Year 6 cohort swim competently, confidently and proficiently over a distance of at least 25 metres?</p> <p>N.B. Even though your children may swim in another year please report on their attainment on leaving primary school.</p>	<p>Due to only having 6 pupils, the results are not published.</p>
<p>What percentage of your current Year 6 cohort use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]?</p>	
<p>What percentage of your current Year 6 cohort perform safe self-rescue in different water-based situations?</p>	

Schools can choose to use the Primary PE and Sport Premium to provide additional provision for swimming but this must be for activity **over and above** the national curriculum requirements. Have you used it in this way?

Yes – we have a programme whereby ALL pupils in school from reception through to year 6 attend swimming sessions during the year and less confident pupils in KS2 are given opportunities to take part in extra lessons with younger pupils.
