

RE Progression and Key Learning

Our overall intent is that pupils when they leave Y6 can discuss significant theological concepts within Christianity and different world religions and explore the inner meanings with the material they study; and have had opportunities to develop their thinking and understanding of the world and their experiences within it. Through RE, we engage pupils in systematic enquiry into significant human questions which religion and worldviews address, so that they can develop the understanding and skills needed to appreciate and appraise varied responses to these questions, as well as develop responses of their own. Knowledge is divided into 3 key parts: substantive (knowledge about religious and non-religious traditions); disciplinary (knowledge of 'how to know' about religion and non-religion) and personal knowledge (a growing knowledge of how pupils' own ideas and values relate with those which they learn about in a religious and non-religious context).

RE is a key subject where we promote Building Learning Power skills: children are constantly encouraged to question, make links, distil information, notice and reason. We want children to feel that they belong to a loving, extended school family and through the exploration of concepts in RE, this supports children making sense of who they are and how they fit in the world.

Our golden threads are: God – we are rooted in God's love; Creation - we are the caretakers of the world; Fall; People of God – to stand against injustice; Incarnation; Gospel; Salvation; Kingdom of God. Intertwined in these are our 8 school values.

We teach our units using a cyclic curriculum. This grid shows how we build progression into our learning and provide further opportunities to build upon knowledge gained. KS1 pupils enter a 2 year rolling programme at different points and KS2 pupils enter the 4 year rolling programme at different points; it is important that children have the opportunity to revisit learning in order to help it become 'sticky knowledge', to further develop skills when using this knowledge and purposefully recap on learning. Not only does this ensure our curriculum fulfils the distinct needs of our learners, it also supports children in being able to remember more because revisiting learning helps it transfer to the long-term memory. In order to do this effectively, we use the Bloom's rainbow steps to success to ensure children can use knowledge in a variety of higher order ways appropriate to their stage of learning. This way of working is successful for our mixed-aged classes.

The Characteristics of Effective Learning are the bedrock of children's experiences within EYFS in all areas of learning. They include:

Playing and exploring

- finding out and exploring
- using what they know in their play
- being willing to have a go

Active learning

- being involved and concentrating
- keeping on trying
- enjoying achieving what they set out to do

Creating and thinking critically

- having their own ideas
- using what they already know to learn new things
- choosing ways to do things and finding new ways

These characteristics form the first steps in preparing our youngest children in their learning about our Building Learning Power skills and link EYFS learning to that which follows in Key Stage 1 and Key Stage 2 where we continue to develop these skills further. The chart below shows how these link.

We believe that in order to help children to be effective learners and remember more, we use Bloom's Taxonomy throughout school as a way of effectively deepening children's understanding. Children are introduced to this in EYFS through the Characteristics of Effective Learning. This hierarchical structure links well with the Characteristics of Effective Learning and therefore links the EYFS curriculum to the curriculums taught in Key Stage 1 and 2. The table below shows how Bloom's Taxonomy links to these characteristics.

Characteristics of Effective Learning	Building Learning Power	Bloom's Taxonomy
Finding out and exploring	This links to the Cognitive and Emotional Mind Noticing: really sensing what's out there Questioning: playing with situations Imagining: using the mind's eye as a learning theatre Capitalising: making good use of resources Making links: seeking coherence, relevance and meaning	Remember: Can the student recall or remember the information?
Using what they know in their play	This links to the Cognitive Mind Making links: seeking coherence, relevance and meaning Capitalising: making good use of resources Reasoning: thinking rigorously and methodically	Remember: Can the student recall or remember the information? Understand: Can the student explain ideas or concepts? Apply: Can the student use the information in a new way?
Being willing to have a go	This links to the Emotional Mind Perseverance: stickability; tolerating the feeling of learning	
Being involved and concentrating	This links to the Emotional and Social Mind Absorption: flow; the pleasure of being rapt in learning Managing distractions: recognising and reducing interruptions Collaboration: the skills of learning with others	
Keeping on trying	This links to the Emotional and Social Mind Perseverance: stickability; tolerating the feeling of learning Interdependence: balancing self-reliance and sociability	
Enjoying achieving what they set out to do	This links to the Strategic Mind Planning: working learning out in advance Revising: monitoring and adapting along the way	Apply: Can the student use the information in a new way?
Having their own ideas	This links to the Strategic Mind Planning: working learning out in advance Revising: monitoring and adapting along the way	Apply: Can the student use the information in a new way? Create: Can the student create a new product or point of view?
Using what they already know to learn new things	This links to the Strategic and Cognitive Mind Distilling: drawing out the lessons from experience Capitalising: making good use of resources	Apply: Can the student use the information in a new way?
Choosing ways to do things and finding new ways	This links to the Strategic and Cognitive Mind Distilling: drawing out the lessons from experience Capitalising: making good use of resources Planning: working learning out in advance Revising: monitoring and adapting along the way	Analyse: Can the student distinguish between the different parts?
